Melokuhle Maseko

SOFTWARE DEVELOPMENT

Web Designer | Web Developer | Application Developer

Motivated software development student studying in C#, JavaScript and PHP,

Alongside modern frontend JavaScript. Passionate about writing clean code and ready to contribute as an entry-level engineer

Technical Skills:

- C#
- JavaScript
- PHP
- MySQL
- Kotlin
- Java

Soft Skills:

Teamwork and Collaboration

Problem solving

Time Management

Adaptability

Education

Diploma in Software Development from IIE Rosebank International

Certificates and Achievements

- Software Testing(Udemy)
- TensorFlow2: Deep Learning and Artificial Intelligence

Projects:

1. **Recipe Explorer** | *JavaScript, REST APIs, HTML/CSS*
    - Developed a dynamic web application that allows users to search, filter, and explore recipes in real-time by integrating an external culinary API.
2. **Clothify E-Commerce Platform** | *PHP, MySQL, HTML/CSS, JavaScript*
    - Built a full-stack e-commerce web application featuring product catalog management, user authentication, and a secure shopping cart workflow.
3. **To-Do List Application** | *JavaScript, HTML5, CSS, Local Storage*
    - Engineered a feature-rich task management tool supporting task creation, categorization, editing, and persistent local storage data retention.
4. **Weather Forecasting Website** | *JavaScript, HTML5, CSS, REST APIs*
    - Created a live weather tracking application leveraging free third-party meteorological APIs to deliver accurate, location-based real-time forecasts.
